SKILLS

Web:

			Design:
HTML5/CSS3	Git/GitHub	Front-End Development	Adobe Creative Cloud
Bootstrap	SourceTree & CLI	User Interface (UI) Design	Graphic Design
JavaScript	JIRA/Trello	Responsive Design	Brand Development
jQuery	Webpack	Agile Development	Project Management

RECENT WEB PROJECTS

Personal Design & Code Portfolio
Website designed and built from scratch as the capstone project for my JavaScript immersive course. Features development/design work and coding projects I completed as a student.

Built with: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Heroku, Webpack, Node.js, Handlebars, Git/GitHub, SVG, Sublime Text, Adobe Creative Cloud

Library App
Library app built using the prototype property in JavaScript.

Built with: HTML5, CSS3, JavaScript, jQuery, OOP, Bootstrap 4, Git/GitHub, SourceTree

Todo App
Class project using multiple libraries and frameworks. Our first build used jQuery, our second, Backbone, and we refactored a third time using React.

Built with: JavaScript, jQuery, MVC, Bootstrap, Backbone, React, Ajax, API, JSON, Git/GitHub, Webpack, Heroku

WORK EXPERIENCE

Front-End Web Developer & Designer - Freelance | November 2016–Present
Designer - Freelance | July 2005–Present

- Design and develop client-side web interfaces using HTML5, CSS3, JavaScript, Bootstrap, and other libraries and frameworks.
- Create responsive web layouts that are desktop, tablet, and mobile compatible.
- Design branding, logos, books, marketing/advertising, and proposals for clients in a variety of industries including retail, education, service, health & fitness, and finance.
- Strategize, plan, and execute all design stages from initial client kickoff to delivery.

Software Developer Apprentice - Techtonic Group, Boulder, CO | February 2017–June 2017

- Gained experience with full-stack web development in an Agile environment using .Net, C#, AngularJS, Kentico, SQL, SourceTree, JIRA, Git/GitHub, and Visual Studio.
- Advocated user interface (UI) design best practices, with a focus on consistency and usability.

Space Planning Technologist / Fixture Specialist / Marketing Production Coordinator - Sports Authority, Englewood, CO | September 2007–June 2016

- Developed and built retail planograms and collaborated with space planning team to manage planogram workflows, processes, and deadlines for 25 unique hard lines sporting goods categories with deliverables to 460+ stores.
- Served as a liaison with internal teams and 30+ vendor partners, managing project kickoffs, timelines, and approvals for store fixture design development and prototyping.
- Oversaw the development of and managed project information accuracy for national localized print media efforts of 600+ newspaper inserts per year.

WORK EXPERIENCE
continued

Lead Graphic Designer - Gallopade Publishing, Atlanta, GA | July 2004–August 2006

• Designed branding & logos, books, catalogs, and marketing materials for a publishing company specializing in school curriculum and children's books.

• Raised quality standards and increased design team productivity by 50% by developing templates to improve design consistency and writing instructional guides.

EDUCATION & TRAINING

Techtonic Academy, Boulder, CO | February–March 2017
Web Development - apprenticeship training program (140 hours)

• Focus on HTML5, CSS3, Bootstrap, JavaScript, jQuery, Git/GitHub, SourceTree, APIs, and Ajax.

General Assembly, Denver, CO | March 2017
User Experience (UX) Design Bootcamp - workshop (8 hours)

DaVinci Institute, Westminster, CO | August–November 2016
JavaScript/Front-End Web Development - immersive program (13 weeks)

• Learned the fundamentals of front-end web development and built interactive web applications and responsive web designs.

• Focus on JavaScript, HTML5, CSS3, SCSS/Sass, jQuery, Underscore, Three.js, D3, Bootstrap, Backbone, React, CLI, Git/GitHub, Heroku, Node.js, Webpack, Handlebars, JSON, Ajax, APIs, Developer Tools, Sublime Text, Trello, Agile.

Treehouse, Codecademy, Code School | 2016–2017
Online coding courses in JavaScript, HTML5, CSS3, Sass, Bootstrap, AngularJS, jQuery (40+ hours)

University of Nebraska, Lincoln, NE
Bachelor of Science, Apparel and Textile Design
